

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
Monitoring Reporting Requirements Not Met for
LUBECK P S D WV3305404

Our water system violated drinking water monitoring requirements. Even though these were not emergencies, you, as our customers, have a right to know what happened and what we did to correct the situation.

We are required to monitor your drinking water on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During periods listed in the table below, we did not monitor or test as required and therefore cannot be sure of the quality of our drinking water during that time.

What should I do? At this time, there is nothing you need to do.

The table below lists the monitoring we did not conduct, other violations, and the associated compliance period.

Monitoring Violation	Year-Fed Report #	Monitoring Frequency	Compliance Period
22, MMCL (TCR), MONTHLY, COLIFORM (TCR)	2000 2015	Monthly	08/01/2000 to 09/01/2000 09/01/2015 to 09/30/2015
65, PUBLIC EDUCATION (LCR), LEAD & COPPER RULE	1994	Every 3 Years	01/01/1993 to 12/31/1993

03, MONITORING, ROUTINE MAJOR, NITRITE	2023	Every 3 Years	01/01/2020 to 12/31/2022
03, MONITORING, ROUTINE MAJOR, SOC Sample Result Not Submitted as Required	2023	2 Every 3 Years	01/01/2020 to 12/31/2022
03, MONITORING, ROUTINE MAJOR, ARSENIC	2023	Every 3 Years	01/01/2020 to 12/31/2022

What happened? What is being done? (Describe corrective action)

2000-2015 Violations were under the prior Chief Operator and all issues have been corrected.

All 2023 Violations were due to State DHHR regulations interpretation changes. The PSD is aware of these changes now and issues have been corrected. Samples were collected and within compliance but location label's were incorrect.
